14. Estimated time required to complete the application of water to beneficial use immediately
15. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

This point of diversion is necessary because of the flooding which occurred during February 1986 washed out all of the existing structures. Construction of these facilities has been completed because of the economic emergency of providing irrigation water for the 1986 season. Construction was supervised by Charles Welch, U.S. Soil Conservation Service.
